

Lanracorp inc.

FULL-SERVICE SOLAR SITE CONTRACTOR

*Large acreage sites require a
contractor that can handle it.*

SERVING CLIENTS ACROSS MULTIPLE STATES

The Lanracorp Mission

Much like our passion for safety, our company is committed to **quality** and the overall **customer experience**. We believe that nothing is ever good enough and that there is always room for improvement. That is the main mission of **Lanracorp** – that we make this industry better as a whole because we will lead from the front.

We encourage our employees to strive for **excellence** and complete projects they can take pride in. Whether it's a industrial clearing task, vegetation management, or project management, no matter the project, we always ensure the job gets done **right** the first time. Our jobs must be **done right**, it's the **Lanracorp** way.

Meet the President

Brent Oberlink

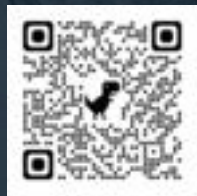

Lanracorp inc.

An Industry Movement

We believe this industry can be **safer, smarter, and more respected.**

Lanracorp is proud to power **The Better Contractor.** A platform built to elevate the industry from the inside out. Through education, real-world content, and honest conversations, we're helping the next generation of contractors rise to a higher standard.

We're not gatekeeping what we know. We're teaching it.

Industry Podcast

Finally, a podcast for your industry. Learn from industry leaders about ways to improve your business. Blue Collar Proud. Community Driven.

Hosted by Brent Oberlink

Your selection of contractor matters.

Choose one that is full service, understands the site complexity, has a full suite of equipment to support your site, and does so safely.

Our full list of services:

- **Vegetation Management-
Mowing & Weed Spraying**
- **SmartSolar Program**
- **Fence & Gate Install,
Maintenance, and Repair**
- **Access and Road Install,
Maintenance, and Repair**
- **Washing of Solar Panels**
- **Site Excavation and Drainage**

STOP relying on mom and pop companies to protect your investment.

Mowing & Mechanical Vegetation Control

From wide-area solar mowers to remote-controlled low profile units, Lanracorp has the fleet and the team to manage your site.

ALL OF THE RIGHT EQUIPMENT

Robotic mowers, wide-deck solar mowers and low profile tractors

BUILT FOR INDUSTRIAL SCALE PROJECTS

We maintain hundreds of acres across multiple states not residential lawns

STAFFED AND TRAINED TO PERFORM

Safety certified crews and trained for utility scale work

We don't just mow. We manage vegetation like your investment depends on it. Because it does.

Lanracorp inc.

Smart Spraying That Saves You Time, Money, and Risk

Lanracorp's herbicide services are designed to suppress regrowth, extend the life of your mow cycles, and reduce site hazards — all while saving you time and money.

LOWER LONG-TERM COSTS

Fewer mow cycles with reduced labor costs

TARGETED, EFFECTIVE CONTROL

Custom herbicide blends for each site.

LICENSED AND COMPLIANT

State-certified crews. Utility-safe application.

FIRE HAZARD REDUCTION

Suppresses dry brush around and under the panels.

Spraying isn't just about control — it's about cost savings, safety, and site stability.

Lanracorp inc.

Clean Panels = More Power. Guaranteed.

Dirt, pollen, and dust can reduce output by up to 30%. Our panel cleaning service boosts efficiency and pays for itself in weeks.

MORE POWER OUTPUT

Remove buildup that blocks sunlight and kills efficiency

PROVEN ROI

Increases production — most clients recover costs within 1–2 billing cycles

SAFE, STREAK-FREE PROCESS

Use of solar-safe detergents and soft-brush equipment

DATA-DRIVEN SCHEDULING

Cleaning cycles based on season, geography, and array type

At a 6MW solar site in Illinois, panel washing increased average output from 4,383.96 kW to 5,343.51 kW — a **22% gain** in production just days after cleaning.

Lanracorp inc.

SmartSOLAR

A Smarter Way to Perform Vegetation Management on your Solar Site.

Reduce Long-Term Costs

Optimize Cycles for Mowing and Vegetation Management

Reduce Fire Hazards

Increase Panel Efficiency

Using Custom Herbicides to Reduce Labor and Improve Appearance

So many contractors don't have a detailed scope of work nor have they selected an optimal cycle in order to reduce cost and improve site appearance. How can we help?

1

GIS Mapping

Accurate zones & Acreage

2

Custom Plan

Scope of work for your site

3

Specialized Equipment

Faster, safer, cleaner

4

Custom Herbicides

Reduce labor & suppress growth

5

Smart Scheduling

Efficient, data driven

6

Results

Long term savings from SmartSOLAR
